DENTAL REFERRALS

The following health care providers have either established relationships working with health care providers at the Student Health & Wellness Center over the years or, are within close proximity to the University for the convenience of our students. If you have dental insurance, please call your provider to be sure they accept your insurance. Most health care plans do not cover routine dental visits, only dental injuries.

If you visit one of these providers and would like to comment on their services, please feel free to speak with anyone at the Student Health & Wellness Center or fill out a comment slip and place it in our Wishbox in the waiting room. We appreciate your feedback.
